AT LEAST 10 KILLED IN CATASTROPHIC FLOODS IN EASTERN REGION OF UGANDA

Catastrophic flooding and landslides in the Eastern Region of Uganda have left at least 10 dead and hundreds homeless after heavy rain caused rivers to overflow. This event happened late July 30th in the Mbale City and the greater Bugisu and Sebei regions. Many have lost property and are displaced by these heavy rains that burst river banks, leaving a trail of destruction. If you would like more details on the devastation you can follow this link:

FROM OUR PROGRAM COORDINATOR - JULIE WIEBE

It's exciting to welcome Kathy Smith, from Ontario to work with me, particularly on the correspondence tasks. Kathy has worked with various charities in administration and has gone on several mission trips – one of which was a review trip for Furaha to Uganda. She still serves in different capacities with the “Loads of Love” organization and in her local church.
